CULPHOLINE LOTION. -- An Ex-

D ternal Means of CURING SKIN

tion but will yield to "Sulpholine" in a

few days, and commence to fade away, even

if it seems past cure. Ordinary pimples,

redness, blotches, scurf, roughness, vanish

as if by magic; whilst old, enduring skin

disorders, that have plagued the sufferers

for years, however deeply rooted they may

be, "Sulpholine" will successfully attack

them. It destroys the animalculæ which

cause these unsightly, irritable, painful

affections, and always produces a clear,

healthy, natural condition of the skin,

"Sulpholine" Lotion is sold by most Che-

# The China Itail.

HONGKONG, SATURDAY, JULY 1, 1882.

EDITORIAL NOTES. The "grand total" figures of all railway of all classes in India for the last official year show that there are 9,741 miles of open live in that country yielding a gross receipt of £14,885,965. The estimated expense

under half the revenue. This progress

altogether the growth of only a quarter

Some idea of the wholesale condemnation of dangerous kerosine-below a flashing point of 73 Fah. Abel's close test-may be inferred from the fact that no less than 200,000 cases of such oil are now awaiting the disposal of the local authorities at Calcutta at a safe distance from the city. It may interestsome of our readers to learn that among the brands condemned, the Noonday and "Lightning" preponderate.

The latest announcement out is "cilgas." We learn that the apparatus for producing the same, from oil, or other oleaginous material, is so simple that ar ordinary cooly could work it after a few days' instruction. The advantages claimed Military Service.—Rev. J. Ost, Acting are greater brilliancy, clearness, and soft-Military Chaplain. Parade Service at 8 ness than coal gas, freedom from any dis-A.M., Holy Communion on the second agreeable odour, and, above all, cheapness. The system is capable of indennite extension, admitting of great variety of applica-

> A wonderful discovery has been recently will revolutionise at least a portion of the Co.) inform us that the Netherlands India gern trade of the world. A round thin S. N. Co.'s steamer Wm. Mackingnon left blue vein, some two or three feet in diame. Batavia for this port to-day, the 1st July. ter running into the hillside, has been found at an elevation of 12,000 feet in the dominion of the Maharajah of Cashmere. From this vein a number of sapphires are reported to have been found, one specimen being about a foot long and 3 or 4 inches in creumference | However, snow precludes investigation at present, but the unusual quantity of the precious stone exposed for sale by lapidaries and others, coupled with the excitement among the native jewellers, gives an air of probability to the reputed find, which, like a good many others, appears to have been ac-

prisoners being 666 for the year 1881, or slipped our memory. nearly double of what it was some halfdozen years back. The best proof of the RESERBING to the letter of our valued satisfactory working of any guol, in the correspondent "Kara-Shaw," we may state interests of the community which it is in that the facts which he has kindly supplied tended to save, is a diminution of the gaol came to our knowledge yesterday. There population, as a direct result of its deter- can be little doubt that the development of rent effect, by reducing the number of its a coal supply is of vital importance to Russia admissions. A reference to the published and to the maintenance of her position in dietary of the local gaol in the Government Northern Asia and on the Pacific. The Gazette is conclusive in proving that our 3 p.m.—Occidental & Oriental S. S. Co.'s prisoners are pampered in this respect. reference to the prison diet scales in India would soon prove our assertion. The Head of an Administration in that country writ- will make of these advantages will no on this subject says that the dist should doubt, as our correspondent suggests; be be just sufficient for the support of a labouring man, and must be composed of substances commonly used in the locality. This rule obtains everywhere; but great who are well versed in these matters that divergence of opinion exists as to what should constitute "sufficiency?" The Prison Conference in India recommended that in the regulation of dist scales economy, of Russis in that quarter; but the duty should not be the only consideration, a lowscale being equally as great a consideration as a measure of discipline—particularly as watchful will certainly not be lessened by in many cases the 'hard labour' to which the successful solution of the soal difficulty prisoners are subjected is frequently more poming than real But this last proceeds ing is at variance with the object of im. Wischwestock and in Sachailer to provide principle of the bone to which our prises population as a most inatences subjected is light rather than heavyintended to be remunerative rather than publice. The aim here in Hongkong has: we are afraid, been to make the institution self-supporting. The community having Foreign Affairs was reely spoken of when Secretar the expense of reforming expenses the last mail left the County was all few and preventing crime ! therefore tenover the mean land of the last tenover to the county of the cou

administration. To show how the end is accomplished in Northern (Bengal and the Punjab), we need instance the fact that the cost of rations prisoners only averages \$104 per head per annum. This is only feeding, exclusive of clothes, medicine, and attendance, which, all included, raises the figure to \$261. On the other hand, the net earnings of the prisoners average \$16, per head (of total criminal population) per annum, which reduces the residual charge to the community wonderfully. We regret that we are not in possession of the like figures for the Victoria Gaol. But a comparison of the ratio of the Gaol population to the total of the Colony with the same ratios elsowhere, can lead us to no other conclusion but that our prison dietary is far from disciplinary. In Hongkong, the proportion is 44 criminals to every 1000 inhabitants, while for the portion of India referred to the proportion is just one hundredth of what it is here! This means that crime in the Colony is onehundred times more rampant than what it is elsewhere in British Territory in the East, We are perfectly aware that while these results are unquestionable, the comparison is liardly a fair one; but when we see figures so unserupulously used as they have been in Hongkong, we may be excused for adducing some startling curiosities by way of com-

Asia, and of China.

WE learn on the best authority that a private telegram was received yesterday, to the effect that no anxiety need be felt by steamer-owners as to the safety of the Suez Canal. This would imply that the London Daily Telegraph had been a little censational in their references to dynamite. and the probability of the destruction of the Canal banks. There can be no doubt but that any attempt to damage the Canal would haston the occupation of Egypt by England more than anything clae; but we doubt much whether it would be of advantage to any one concerned that English occupation should thus be brought about. One cannot help commending the foresight of Lord Beaconsfield in acquiring the large share in the Suez Canal Company which he did on behalf of England, for it gives a definiteness to England's hold upon Egypt which no merely sentimental notions could warrant. The occupation of Egypt or the absolute security of the Canal, would exercise a powerful influence upon and immensely lessen the interest which Great Britain now takes in Turkey-in-Europe,

now been a resident in the Colony for several months and who has become a great favourite ced, immediately after the last shooting competition, that he would give another and more valuable cup, as well as a second prize of a silver watch, and a third of a silver pencil case, to be shot for by the visitors to his range about the beginning of July. These prizes were competed for last night by twenty-aix gentlemen, among whom were several good marksmen, but who were, as the result showed, unsuccessful in securing prizes; the Colonel's "favourite," who had done some remarkably good shooting previous to the competition, being also left far behind. At the close of the shooting, Captain Honderson, master of the American lorcha Wrecker and a post entry, was declared the winner of the cup with a score of 24, while Mr Glass, and gentleman who modestly prefers to have his name concealed from the public, tied with scores of 23 each. When the tie was shot over Mr Glass topped his opponent's: score of 22 by one. The result of the shooting was most unexpected, and several of the competitors were considerably put out of their calculations. At the conclusion of the competition, three hearty cheers were given for Colonel Austin, who returned his thanks to those assembled in a few feeling remarks. We understand that a challenge subscription cup, entry 85, is likely to be shot for shortly.

Successful trials of electric lighting by labour was imposed on Tse Achan, a coolie water-power have been made at Carsaig, who was priginally charged with entering the seat of Mr. Maclean, of Pennycross, in the house of Li Afat, barber, this morning, Scotland. A LATE number of the Economist contains the reports of ninety-four joint stock banks, with a capital of £47,000,000 a sum which is estimated to be equal to 927 per cent of the banking capital of the country. So large a proportion of the joint stock banks have never before published balance-sheets. and the greater publicity thus given to their affairs is a healthy sign of the times. There are still, however, twenty-nine joint stock banks in England, with a capital of £3,700,000, which publish no balancesheets, and four out of the nine joint stock banks in Ireland follow the same purblind and antiquated policy. All the Scotch banks-wise from bitter experience-now publish audited balance sheets. From the secrecy of some companies, and because no private bank in the country makes any statement of its affairs, it it is difficult to say what the banking liabilities throughout the kingdom upon deposits may be ; but the Reconomist puts the total aum at more than £540,000,000, or within £20,000,000 of the estimated total in the latter half of 1878. Of this total £272,000,000 is put to the credit of joint stock bannes in England and Wales, £30,500,000 to the credit of the of the other banks including, we suppose, and of September last the total deposits of the National banks in the United States. Government and private together, amounted to little more than £216,000,000 -- Pall Mall Garette.

COAL AT WLADIVOSTOCK. To the Editor of the "CHINA MAIL."

Sir,-With reference to the remarks in restorday's issue as to the efforts of Russia to develop the coal fields, I do not know whether you are aware of the existence of very extensive coal seams within 18 miles of Władiyostock, for the working of which a company has been started and the principal the opening of the seams, which are situated The defendant said he went to take the in the face of a hill and can be worked by old of him, and showed himself to be al- and is suitable for steaming purposes and water close to the shore, near the mines, The magistrate thought the charge had which it is proposed to connect by some 12 seems every probability that the undertaking will prove a success. I may add that coal of fair quality, exists in considerable quantities on both the East and West coasts of Saghalien. I have seen the coal in situ on several parts of the coast, and heard of more from people on the spot. The want of harbours on the Saghalien Coast is a great drawback; but there is little doubt that the Russians will form Naval Station in Anima Bay, so soon as the coal question can be settled, and our own authorities would do well to keep this in

ability of the age, and suggests that there are hardly limits to the achievements of modern science. Will the St. Gothard Railway pay ? The original estimate of the cost of the whole line was seven millions and a half sterling, towards which a subvention of one million two hundred thousand pounds was given by Germany, one of one million one hundred and twenty thousand pounds by Switzerland, and one of two millions two hundred thousand rounds by Italy. The total amount of the original subvention was therefore four millions five hundred and twenty thousand pounds-we believe that Italy and Switzerland have since made further contributions -which left a sum of about three millions to be raised by the Company which undertook the construction of the line. It very soon became evident; however, that the cost of construction would greatly exceed tions put the whole outlay at eleven millions and a half, or four millions more than the original estimate. Some of the projected works were, therefore, temporarily abandoned, and the expenditure in that way cut down to nine millions, which is, we believe, the amount that has been expended. The capital of the Company is in shares one million five hundred and sixty thousand pounds, and in bonds three millions four hundred and forty thousand which present a happy contrast to the perturbation of order and public safety, the hundred thousand. The Company is entitled to a dividend of seven per cent. upon its capital, after the payment of which the remaining profits are divided between it and the States which have given the subventions. We expect it will be a very long time before these States get back any of their money, and we fear it will be a long time also before the shareholders get their seven per cent. The massenger traffic can hardly be considerable. Most English people will continue to make their way to Italy through Paris, and the passenger traffic between Northern Germany and Italy is not very great. It is upon its mer- P. Passing showers. Q. Squally. R. Rainy. chandise receipts that the Company must rely for its dividend, and it can hardly be hoped that from this source it will for some time to come obtain more than enough to pay its working expenses, which must be very heavy. Everybody, however, must hope that the courage and skill which have carried to a successful issue so noble a work as the St. Gothard Railway may be speedily and richly rewarded. (Times, May 22.)

flects so much honour upon the engineering

AN EGYPTIAN MYSTERY.

To-day witnesses the inauguration of perhaps the grandest engineering feat ever Any one venturing out in the scorching attempted. In the St. Gothard Tunuel one cays of the sun towards noon to-day might more proof has been afforded that modern have observed a curious procession wending its way slowly and silently along the sandy road which leads to the quay-wall at Suez The assemblage consisted of nine female figures in native dress, currying bright silk Darasols, and jealously veiled by the burkah, or Egyptian "yashmak." A few soldiers marched on either side, a couple of Government officials led the way, while a crowd of black slaves bearing innumerable bundles brought up the rear. On reaching the landcontemplated subway to connect England ing-place, the party embarked on a native with France. The exact distance of the St. fishing-boat, the bundles were thrown in Gothard boring is 9 miles 468 yards, being and the sail set. In a few minutes the boat about a mile and a half longer than its might have been seen gliding gently down Mont Cenis rival. Thanks, however, to the creek towards a Khedivial steamer recent improvements in the mechanical ap- anchored in the roads with steam up, and pliances used in tunnelling, the greater the green (blue) "Poter" flying at the fore: Pharmaceutical Journal quotes the opinion work has been finished in less time than From the time this strange party came in of an eminent analyst, from which it ap- the smaller one. Lady Bowen. LOADING FOR CHINA AND JAPAN PORTS Lord of the Isles.

Agamemnon. Agnes Muir.

THE LONG JOURNEY. When our foot become heavy and weary On the valleys and mountains of life. and the read has grown dusty and dreary. And we groan in the struggle and strife, We halt on the difficult pathway, Glance back over valley and plain, And sigh with a serrowful longing To travel the journey again.

For we know in the past there are pleasures, And seasons of joy and delight, While before all is doubting and darkness, And dread of the gloom and the night; All bright sunny spots we remember-How little we thought of them then! But now we are looking and longing To rest in those places again.

But vain of the vainest is sigling, Our course must be forward and on ; We cannot turn back on the journey. We cannot enjoy what is gone. Let us hope, then, as onward we travel That cases may brighten the plain, That our road be beside the sweet waters, Though we may not begin it again.

For existence for ever goes upward-From the hill to the mountain we rise, On, on, o'er invisible summits, To a land in the limitless skies. Strive on, then, with courage unshaken-True labour is never in vain-Nor glance with regret at the pathway No mortal can travel again.

#### PARALLELS, UNPLEASANT BUT WHOLESOME:

(Pall Mall Gasstle.) In comparing the Prevention of Crimo Bill with the very stringent law passed by the German Reichstag against the Social ists in October, 1878-a law first emacted for only two and a half, but subsequently extended to seven years-it is important to notice the difference in the objects of the two measures. The only purpose, or m least the only avowed purpose, of the Bil at present before the Commons is the prevention, detection, and punishment of crime; the purpose of the Socialist law was the suppression of opinions supposed to bedangerous to society. The actual crimes of German Socialism had been few. Even if the attempts of Hödel and Nobiling can fairly be set down to its account; they stand alone; and certainly there could be no pretence that the ordinary law was not quite sufficient to deal with them? There is therefore nothing in the Socialist law to vention of Crime Bill. That measure de: Socialist law upon the Federal Governpolice authorities. The Socialist law, indeed, was primarily directed against " associations serving to promote Communistic aspirations," which it dissolved, attitle same. time confiscating their funds; but it also contained stringent provisions for the proarbitrary powers of the Executive in certain districts. This is effected in the English Bill by the proclamation of a district by the Lord Lieutenant; in the Socialist law by in the "minor state of singe." in several of the largest cities in Germany, is in some respects a more oppressive condition than any that will be possible oven in a proclaimed district under the Prevention of Crime Bill. Under it the authorities may, for instance, absolutely prohibit the wearing, importation, or sale of arms may prohibit all meetings and stop the sale of all papers and pamphlots, and may. above all, expel from the prescribed dis-

trict any person "from whose presence a

MAN OF "AN ECCENTRIC AND JOCULAR DISPOSITION. A point of much interest to railway tra vollers generally has been raised by an old and well-known citizen of Chicago, M John M'Auley. This gentleman, who, i is stated, is of "an eccentric and jocular disposition," lately conceived the brillian idea of boxing himself up, and obtaining transportation to Philadelphia as mer chandiso. He was informed by the agent of the Adams Express Company, to whom he announced his intention, that no objection would be raised to his travelling to Phila delphia in a box, but that he would have to pay passenger fare. Mr M'Auley de clared, however, that he would go as mer chandise, and would pay no more than \$2.50c. per cwt. He accordingly, on th 4th inst., packed himself up in a box, with a week's provisions by his side, and wa taken by an expressman to the railwa office. The box was 18in, wide, 6ft, long hooped with iron bands, and fastened by padlock. It was addressed to " Mis Kisselman, Philadelphia," and the agon was told that it contained flowers. On th same night the box was forwarded, to its and martial law. Under the first Coercion a more democratic agency for spreading destination, the charges having been prepaid. At an early hour on the following morning the real nature of the contents of the box was discovered by a railway guard. and when the train stopped at Van West, Ohio, Mr M'Auley was taken out of his box and put into jail. The old gentleman was "shipped home." in the evening. having had a narrow escape of being shot by the guard as a train robber. He intended nevertheless, to try the question again on

1. All correspondence posted before p.m. on any week day for addresses in Victoria will be delivered the same day, and generally within two hours, unless the delivery should be retarded by the Contract Mails

2. Invitations, &c., can generally be delivered within Victoria at the private 5. - Sums not exceeding \$50 may be rehouses of the addressess rather than at pisces of husiness, if a wish to that effect be expressed by the render, otherwise all correspondence is invariably delivered at the mearest place of business.

Boxholders who desire to send Cirques China Mail Office.

Les, Dividend Warrants, Invitations, Cards. Hongsong, December 8, 1879.

EDWARD GEORGE, Share Broker.

Ac. all of the same weight, to addresses in Hongkong Rates of Postage. Hongkong, Bangkok, or the Ports of China, may deliver them to the Post-

charged to the sender's account. Each batch must consist of at least ten. 4. Boxholders may also send Patterns to the same places in the same way. Envelopes containing Patterns may be wholly closed, if the nature of the contents be first Newspapers over four ounces in weight exhibited or stated to the Postmaster

#### Local and Indian Parcel Post.

Small Parcels may be sent by Post at Book Rates between Hongkong and any of the British Post Offices in China, as well us to Japan, Macao, Pakhoi, the Straits Settlements, Ceylon and India. They must not exceed the following dimensions, 2 feet long, I foot broad, I foot deep, weigh more than 5lbs., nor be smaller than 3 in. by 2 Beatrice in. Such parcels may be wholly closed if they bear this special endorsoment, Camelot PARCEL. CONTAINING NO LETTER, but any parcel may be opened by direction of the Ceres Postmaster General. In the Case of Parcels | Courier for India a declaration of contents and Craigland, e.s. value is required, a printed form for which is supplied gratis. The Registration of Parcels for India and Ceylon is compulsory. Ella 2. The following cannot be transmitted: Ella S. Tajor Parcels insufficiently packed or protected, Eulie or liable to be crushed (as bandboxes, Flod en &c.) Opium, Glass, Liquids, Explosive substances, Matches, Indigo, Dyostuffs, Ico, Meat, Fish, Game, Fruit, Vegetables, or Furrway.

transit. 3. Parcels are as a general rule forwarded by Private Ship, not by Contract Mail Packet. To India they are forwarded by Henrietta the P. & O. and Indian Mail Packets only, Hilda Marie to Ceylon by P. & O. only. No respon- Himalays aibility is accepted with regard to any parcel, unless Registered, and then only to Huntingdon; s.c. 2 the amount of \$10.

4. The public are cautioned not to confound these facilities with a Parcel Post to Europe, &c., which does not exist.

#### It is necessary that the following rules Wychampo (Chino), Manila, 25 newspapers. be strictly observed.

1. No Letter or Packet, whether to be registered of unregistered, can be received for Postage if it contains gold or silver Borbet money, jewels, precious articles, or apy- Bolstim Official. thing that, as a general rule, is liable to Borssem Janko. Customs duties.

2. This Regulation prohibits the sending of Patterns of dutiable articles, unless the quantity sent be so small as to make the sample of no value.

3. The limits of weight allowed are as Christian Shield follows :--

Books and Papers-to British Offices, 5 lbs. : to the Continent, &c., 4 lbs. Couronne de Marie. Patterns to British Offices, 5 lbs. if without intrinsic value; to the Continent, &c., 8 oz.

Indemnity for the Loss of a Registered Article. The Post Office is not legally responsible for the safe delivery of Registered correspondence, but it is prepared to make good the contents of such correspondence lost while passing through the Post, to the extent of \$10, in certain cases, provided :-

1. That the sender duly observed all the conditions of Registration required.

2. That the letter was securely enclosed Hymns on the Holy Spirit. in a reasonably strong envelope. 3. That application was made to the Illustricte Zeitung. Postmaster General of Hongkong immediately the less was discovered, the envelope

being invariably forwarded with such appli- Journal d'Orient. cation unless it also is lost. 4. That the Postmaster General is satisfied that the loss occurred whilst the correspondence was in the custody of the British Postal administration in China, that it was not caused by any fault on the part of the sender, by destruction by fire, or shipwreck,

nor by the dishonesty or negligence of any

person not in the employment of the

Hongkong Post Office. 5. No compensation can be paid for mere damage to fragile articles such as portruits watches, handsomely bound books, do which reach their destination, although in a broken or deteriorated condition.

SANCTIONED BY HER MAJESTY'S GOVERNMENT. Protected under the "Trade Marks Act" (3 and 30 Viot.,

ch. 91). Enacted by the "QUEEN's MOST Ex-CELLENT, MAJESTY," 20th August, 1875.

HEALTH, STRENGTH AND ENERGY.

### LALOR'S PHOSPHODYNE Discovered and so named, A.D. 1862, by R. D. Lalor, M.D. TO RESIDENTS IN INDIA, OHINA, AND THE COLONIES, IT WILL PROVE

INVALUABLE AS A RELIABLE LIVER TONIC AND A VITALISING RESTORATIVE.

#### DR. LALOR'S PHOSPHODYNE

Is a Pure Solution of Phosphorus, pleasant in flavour and appearance, being a perfectly Bright Liquor, combined with Vegetable Alkaloids, possessing marvellous Curative Properties, the Wonder of Modern Chemistry, free from all Dangerously Active Drugs; innocent in its action, and pronounced by the Highest Medical Authority to be unequalled for its power in replenishing and elaborating the Vitality of the Body; by its supplying all the essential Vitalising constituents of the Blood, Brain, and Nerve Substance; and for developing all the Powers and Functions of the System to the highest degree, thereby checking all Wasting of the Vital Fluid, and the more Exhausting Wear and Tear of Life resulting from Over-taxed Energies of Body or Mind. maintaining that Buoyant Energy of the Brain, Nervous, and Muscular Systems, which Their beneficial effect is speedy and certain. renders the Mind Cheerful, Happy, Brilliant, and Energetic.

## DR LALOR'S PHOSPHODYNE

Surpasses all the known therapeutic agents of the present age, as The Only Safe, Reliable and Permanent Cure For all Derangements of the Nervous and Blood Systems.

Nervous Prostration, General Debility, Mental and Physical Depression, Incapacity for Study or Business, Noises in the Head and Ears, Loss of Energy and Appetite. Nervous Debility in all its Stages, Softoning of the Brain, Sleeplessness, Harassing Dreams, Paralysis, Pains in the Back, Affections of the Kidneys, Urinary Deposits, &c., Asthma, Scrofula, and Skin Diseases, Wasting or Withering of the Muscles, Impure and Impoverished Blood, Premature Decay of Vital Power and all morbid conditions of the system dependent upon the deficiency of the Vital Forces arising from whatever cause.

#### THE ACTION OF DR. LALOR'S PHOSPHODYNE

Is Two-fold and Specific; on the one hand increasing the principle which Constitutes Nervous Energy; and, on the other, the Most Powerful Blood and Fleshgenerating Agent known; therefore a Marvellous Medicine for Renovating Impaired and Broken-down or Exhausted Constitutions, making the recipient as Active, Sprightly and Vigorous as if nature had never been retarded or debilitated.

## AN ALARMING FACT.

Tens of Thousands of the people of China are to-day dying from the effects of Brain. Disease, Dyspepais or Disordered Liver, which Poison the Blood and sap the springs of life. The results of these diseases upon the masses of intelligent and valuable people is most alarming, making Life actually a burden instead of enjoyment and usefulness, as it ought to be. There is not any good reason for this, seeing the united testimony of a great number of sufferers establish that DR. LALOR'S PHOSPHODYNE is superior to any Medicine yet discovered for the Cure of Dyspepsia and Liver Complaints in all their varied forms. The promptness and certainty of its action is such that when the fire of life seems to be dying out in the system, and the mind sympathising with the body, is reduced almost to a state of imbecility, this mighty PHOSPHORIC Restorative, by a few doses, seems as it were to lift the sufferer out of the slough of despond, and recruit and reinvigorate both the frame and the intellect.

## TWENTY YEARS' PUBLIC TEST

Prove these facts unimpeachable, being fully borne out by thousands of testimonials from every nation and country in the world, freely offered by distinguished families. private persons, military, naval, scientific, and professional men who are well known. and who have experienced from its use all the benefits here indicated. DR. LALOR'S PHOSPHODYNE is sold in Bottles at 4s. 6d. and 11s., by all Export.

Wholesale and Retail Medicine Vendors throughout the World. The large and continually Increasing Sale of Dr. Lalor's Phosphodyne, since its introduction in 1872, has led some unscrupulous persons to foist Bad Imitations on the Public Abroad Read the following Notice :-

IMPORTANT NOTICE. - NONE IS GENUINE UNLESS the name Dr. Lalor's Phosphodyne, London, England, is blown in the Glass of each Bottle, and every Bottle bears the British Government Stamp, with the words Ds. LALOR'S PHOS-PHODYNE, London, England, Engraved thereon by Order of Her Majesty's Honourable Commissioners; IF NOT, IT IS A FORGERY, and you have been imposed on by a worthless Imitation.

BEWARE OF WORTHLESS IMITATIONS THAT MAY EMANATE FROM KNAPS PATENT MECHANICAL AUSTRALIA.

Manufactured only at the Phosphodyne Laboratory by DR. R. D. LALOR.

BAY HOUSE, 32, GAISFORD STREET, LONDON, N.W., ENGLAND, THE SOLE PROPRIETOR AND ORIGINATOR OF PHOSPHODYNE.

Ague, Coughs, Colds, &c. Da. J. COLLIS BROWNE'S

CHLORODYNE (Ex Army Med, Staff)
IS THE ORIGINAL AND ONLY

GENUINE. CAUTION. - Vice-Chancellor Sir W. P. Wood stated that Dr. Collis Browns was undoubtedly the inventor of Chlorodyne; that the story of the defendant Freeman being the inventor was deliberately untrue, which he regretted had been -sworn to. Eminent Hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's. - See Times, July 12, 1864. The public, therefore, are cautioned against using any other than DR. J. COLLIS BROWNE'S CHLORODYNE

REMEDIAL USES AND ACTION. This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times whon requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most exten-

CHLORODYNE is admitted by the profession to be the most wenderful and valuable remedy ever discovered. CHLORODYNE is the best remedy known for

Coughs, Consumption, Bronchitis, Asthma. Chlorodyne effectually checks and arrests those too often fatal diseases-Diphtheria, Fever, Croup, Ague. CHLORODYNE acts like a charm in Diarrhoea, and is the only specific in Cholera and Dysentery.

ttacks of Epilepsy, Hysteris, Palpitation and Spasms. CHLORODYNE is the only palliative in Neuralgia, Rhoumatism, Gout, Cancer, cothache, Meningitis, &c.

CHLOBODYNE effectually cuts short all

From Symes & Co., Pharmaceutical Jhemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great itussell Street, Bloomsbury, London .-Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Or. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all utility, we much question whether a better is imported into the country, and we shall cluding postage to Coast ports. be glad to hear of its finding a place ill be but evanescent. We could multiply instances ad infinitum of the extraordinary fficacy of Dr. Collis Browne's Chlorodyne n Dinrrhoea and Dysentery, Spaams, Jramps, Neuralgia, the Vomiting of Pregancy, and as a goneral sedative, that have ccurred under our personal observation uring many years. In Choleraic Diarrhosa, and even in the more terrible forms of tholera itself, we have witnessed its curprisingly controlling power. We have never used any other form of this medicine than follis Browne's, from a firm conviction that it is decidedly the best, and also from a them s nse of duty we owe to the profession and the public, as we are of opinion that the s bstitution of any other than Collis prowne's is a deliberate breach of faith on patient alike. We are, sir, faithfullyyours, Symes & Co., Members of the Pharm. the Viceroy's Chemists."

Extract from the General Board of News and Advertisements. Health, London as to its efficacy in Cholera: -"So strongly are we convinced of the sent to immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases. #### PUBLISHED BI-MONTHLY. TENTH YEAR.

THIS Review, which was intended to meet the wants of many students of Chinese caused by the discontinuance of "Notes and Queries the China and Japan," has reached its Tenth Volume. The Review discusses those topics which are uppermost in the minds of students of the "Far East" and about which every intelligent person connected with China or Japan is desirous of nected with China or Japan is desirous of sequiring trustworthy information. It includes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc.; etc., of China, Japan, Mongolia, Tibet, and the Far East generally. Recently a new departure has been taken, and the Review now gives papers on Trade, Commerce, and Descriptive notes of Travel by well-known writers. It was thought that by extending the scope of the Review in this direction, the Magazine would be made more generally useful.

The Review department receives special attention, and endeavours are made to present a careful and concise record of Literature on China etc., and to give critiques embodying sketches of the Most recent works on such topics. Authors and Publishers are requested to forward works to "Editor, China Review, care of China Mail Office."

The Notes and Queries are still continued and form an important means of obtaining from and diffusing among students knowledge on obscure points.

The Correspondents' column also affords farther and greater facilities for the interchange of views and discussion of various Original contributions in Chinese, Latin,

or any of the Modern Languages are received. The papers are contributed by the members of the various Consular, the Imperial Customs, and Hongkong Services, and also by the Missionary bodies amongst whom a high degree of Chinese scholarship is assiduously cultivated. Amongst the regular contributors are Drs. Chalmers, Eitel, Bretschneider, Hirth, and Hance, Professor Legge, and Messrs Ballour, Watters, Stent, Phillips, MacIntyre, Groot, Jamieson, Faber, Kopsche Parker, Playfair, Giles, and Piton,—all well-known names, indicative of sound scholarship and thorough mastery of their subject.

The Subscription is fixed at \$6.50 per.

annum, postage neluded - payable in ad-Orders for binding volumes will be promptly attended to: Address, "Mana-

ger, China Mail Office." OPINIONS OF THE PRESS. .

"All our learned societies should sub scribe to this scholarly and enterprising Review."-Northern Christian Advocate (U.S.

"The China Review \* \* \* \* has an excellent table of contents." - Celestial Empire. "The Publication always contains subjects of interest to sojourners in the Far East and the present issue will hold favourable if not advantageous comparison, with preceding numbers."-Celestial Empire.

This number contains several articles of interest and value."-North-China Herald "The present number of this periodical \* \* \* \* opens with a review of the Foreign Trade of China during 1880. This is rathe a new departure for a publication which professes to be purely literary; but con sidering the comparatively small circulation it enjoys at present among the commercia communities of China, we hall the innovation as likely to recommend the Review few matters beyond mercantile pursuits."-North-China Herald.

"The China Reviewfor September-Octobe fully maintains the high standard excellence which characterises that publ cation, and altogether forms a very interesting and readable number. Moteorologists will find an interesting and valuable contribution by Dr. Fritsche, on "the Amount of Precipitation (Rain and Snow) of Peking," showing the results of observations made at the Imperial Russian Observatory at Peking, from 1841 to 1880. "Notes on the Dutch Occupation of Formosa," by Mr. Geo. Phillips, contains some interesting information, although much of it is second-hand. The Notices of New Books include a most generous and appreciative review of "The Divine Classic of Nan-Hua," and the Notes and Queries Liero as usualvery interesting."—North-China

Daily News.

"A substantial and reliable Review which all students of China and the Chinese would do well to patronise."—Chrysanthemum. "The November-December number of the China Review contains less variety than usual, but the few articles are very interesting. The opening paper by Mr Herbert

A. Giles on "The New Testament in Chinese" treats of a question that must necessarily be of great importance in the eyes of all missionaries. Mr E. H. Parker's "Short Journeys in Szechuen" are continued, and a goodly instalment of these travels in the interior of China is given. Mr F. H. Balfour contributes a paper of some length entitled "The Emperor Cheng, founder of the Chinese Empire," which will be read with genuine interest by students of Chinese history. A few short notices of New Books and a number of Notes and Queries, one of which "On Chinese Oaths in Western Borneo and Java" might appropriately have been placed under a separate heading, complete

the number."-H.K. Daily Press. Trubner's Oriental Record contains the following notice of the China Review:-The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the negumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desir-able; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the Review by papers highly Appropriately and Gange translations from Chinese novels and Gange translations from Chinese novels and plays are marked by both accuracy and fresh-ness of style; and an account of the career of \*K. the Chinese poet-statesman of the eleventh century. Bu Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review if carried out with punctuality and detail, we are glad to notice that Notes and Queries are destined to hind a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary seal to that which was displayed during the lifetime of its predefication in the field, and that the China Review Has pages in the field, and that the China Review Has page receive the support necessary to insure that continuents.
